## Financial Projections

Your financial and retirement income projections
Prepared for John Snapper, Ontario, Canada on August 15, 2023
Scenario: Retire at age 60-with Corporation

## Note to Reader

These financial projections are provided for illustration and/or discussion purposes only. The actual outcomes depend on many factors, variables, assumptions, estimates, and forecasts based on beliefs and assumptions made by the author and/or by the recipient. As such, the results are not guaranteed to occur as they involve risks and uncertainties and are not guarantees of future performance or results and no assurance can be given that these estimates and expectations will prove to have been correct, and actual outcomes and results may differ materially from what is expressed, implied or projected in such financial projections.

## Goals and Objectives

In this financial plan we will review your goals and objectives in the following financial planning areas:

## Financial Management

- Review your cash flow and net worth.
- Funding your daughter's education.

## Investment Planning

- Review your current investment portfolio.

## Risk Management

- Determine if you are adequately insured.
- In case of your premature death, ensure your daughter can maintain your current lifestyle until she turns 30 .

## Tax Planning

- Defer taxation today by contributing to your registered plans (TFSA, RRSP, and work pension plan).
- Discuss account withdrawal strategies to reduce tax on your future retirement paycheque.

## Retirement Planning

- Validate that you are on track to retire at age 60 with a spending_goal of $\$ 60,000 / y$ ear in today's dollars.

## Estate Planning

- Ensure the appropriate plans and documentation are in place.
- Discuss leaving your daughter an inheritance of $\$ 1$ million in today's dollars.

| Assumption | Value |
| :--- | :--- |
| Rate of return: Investments | $4.10 \%$ |

## Comments

## Other Assumptions

- We've assumed a wage increase of $1.5 \%$ per year until retirement.
- You have a Defined Benefit Pension from a previous employer that will pay you $\$ 1,000 /$ month at age 65 , indexed to $75 \%$ of inflation.

## Investment Contributions

- John's Workplace Pension Plan: \$625/month (5\% of salary) for both the employee and employer (total of \$1,250/month to DCPP).
- RRSP: \$1,000/month.
- TFSA: $\$ 500 /$ month (to be increased as the TFSA contribution limit increases with inflation).
- Non-Registered: \$500/month.
- RESP: \$200/month.

## Debt Payments

- Mortgage: $\$ 1,250 / m o n t h$. Your mortgage is fully paid by the end of the year 2033.
- See the Insurance Policies section of the report.

## Cash Outflows

Shown In Real Dollars.

Base Expenses
Vacations
Income TaxDebt Payments Insurance Premiums

Capital Assets
... Total Inflow

## Comments

This chart represents your total cash outflows from today until the end of the projection. We can see that your base expenses(lifestyle expenses) stay relatively consistent throughout. We can also see your debts payments, vacation and saving contributions. The dotted total inflow line represents that you have enough income to cover all the cash outflows.

## Cash Inflows

## Comments

This chart illustrates how we build your "retirement paycheque" from various sources of income and investment withdrawals.

## Net Worth

Shown In Nominal Dollars.

## Comments

This is your projected net worth; your investment and real-estate assets grow until your retirement, and subsequently, deplete over time as withdrawals are made to fund your retirement spending.

## Asset Allocation

Year: 2023 $~ \square$ Include Real Assets

This chart does not include the Cash Balance.

## Comments

Your current asset allocation is roughly $75 \%$ equity and $25 \%$ fixed income. This is representative of a growth portfolio.

## Comments

In our discussions, you mentioned that your goal is to leave your daughter an inheritance of \$1 million. Our projection indicates that your estate will be worth $\$ 3.9$ million by the time you turn 95 , which is the equivalent of $\$ 1.69$ million in today's dollars after accounting for inflation, thus achieving your desired legacy goal. Your net estate will likely meet your legacy goal for your daughter in any given year.

## Comments

A note on your workplace pension: In our projection, your workplace Defined Contribution Pension Plan (DCPP) is converted to a Life Income Fund (LIF) when you retire.

## Education

## Comments

One of your goals is to ensure you can fund your daughter's education. As per our discussion, we've assumed a cost of \$15,000 in today's dollars, inflated by $2.5 \%$. Our projection indicates that your current contribution of $\$ 200 / m o n t h$ to your daughter's RESP will be sufficient to pay for her education costs from age 18 to 21 .

## Comments

One of your goals is to ensure, should you pass away unexpectedly, that your daughter can maintain her current lifestyle until she reaches the age of 30 . Through our discussions, we've quantified this goal as an income replacement need of $\$ 5,000 /$ month for 21 years (as your daughter is currently 9 years old), and lump-sum needs of paying off the mortgage and covering your estate taxes. We've also considered the capital gains tax on the family cottage, which you would like to keep in the family. Our analysis indicates the various investments, real-estate assets, and life insurance proceeds that your daughter would inherit are sufficient to cover your risk management goal. As well, the previous table illustrates that there will be no need for additional life insurance coverage should you pass away unexpectedly in a future year.

(4) Other Expenses - Total amount of corporate expenses (deductible and non-deductible).

## Recommendations

Congratulations on taking this important step to ensuring that your financial objectives are achieved. Here are our recommendations:

## Financial Management

- Take advantage of any opportunities to increase your debt repayments, this can greatly reduce the amount of interest paid.

## Investment Planning

- Currently, you have investment assets at another firm. We recommend you review and consolidate your investments with our firm to simplify your finances and potentially pay less in investment management fees.

## Risk Management

- Review your critical illness and disability insurance coverage so we can discuss these topics in our next scheduled meeting.

## Tax Planning

- In this scenario, we take $\$ 4,000 /$ month from your RRSP/RRIF from age 60 to 65 to bridge the gap before you start receiving your government benefits (Canada Pension Plan \& Old Age Security). By implementing this tax planning strategy, we can take advantage of the graduated tax rates during your lower-income years.

## Retirement Planning

- Based on your current contributions to your various investment accounts you are on track to meet your retirement goals. Great job!

## Estate Planning

- Your Will and/or Power of Attorney may need to be reviewed to ensure that your legacy goals for your daughter are met. We recommend
- you meet with a lawyer who specializes in this field to have these documents properly updated.
